554 ROUTE F F

Type: ROUTINE INSPECTION

EVERTON, MO 65646

Date: 09 July 2013

2.40 (b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Sec. 2.40 Attending veterinarian and adequate veterinary care (dealers and exhibitors).

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include:

(2) The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care;

---- There is one Male Dachshund microchip number 101-063-057 named "ET Tony" in the third building that has a left front paw that is swollen between the second and third digits of the front left paw. It is a reddish color and spread the toes apart. The dog will not bear any weight and constantly licks the site. The licensee after asking, stated "she saw it this morning". The licensee must have their attending veterinarian see this dog and document the treatment in the animals health record.

Item affects 1 canines

To be corrected by 07-12-13

--- In the third building in the medicine box there is a bottle whose label has the medicine name and treatment plan is missing. Licensee stated it is Metronidazole. She rewrote the required information on the label. All medicine labels must be properly labeled with all required information such as name, concentration, dosage, frequency, expiration date and route. To ensure animals are treated properly. Corrected during the inspection.

Exit interview conducted with facility representative.
